PURE AROMA

power

The new GEFU X-PLOSION® design series sets new standards in seasoning with ingenious grinders, super-sharp chilli cutters, stylish shakers and other innovations.

X-PLOSION® kitchen tools look impressive, sit comfortably in the hand and function outstandingly well. X-PLOSION®: pure aroma power for today's creative cuisine.

GEFU's innovative development crushes salt crystals and peppercorns particularly quickly, easily and effectively. No wonder: the extra-large CYCLONE® grinding mechanism made of high-performance ceramic is equipped with significantly more teeth than standard grinders, making it six times more efficient. With more large, ultra-sharp teeth that effortlessly break down even chunky crystals, seeds and grains.

The larger number of fine teeth grind products uniquely uniformly at any grind setting in no time at all.

CYCLONE® – modern professional grinding.

- Airtight lid
- Anti-fingerprint surface. Protects the stainless steel against smudges and fingerprints and is particularly easy to clean.

- Symmetrical double conical burr grinder: the contents are broken up in the upper area before being ground very finely in the lower area. Ensures that the results are especially uniform and makes the output extremely efficient.
